To Whom It May Concern:

Rc: Request for Service Availability

Waste Management of New Mexico offers two types of residential containers (a 96-gallon cart with wheels and 300-gallon tub which are stationary) at reasonable rates as well as Commercial sized bins and Roll-off boxes. Waste Management is willing to service the proposed El Valle Office adjacent to the Llano Quemado Community Center, provided the roads and driveways are maintained and service locations are safe, passable and accessible. All rules and regulations will be stated on customer's service agreement once service is applied for.

Any questions concerning our service can be directed to our office at 575-751-0708.

Sincerely,

A handwritten signature in black ink, appearing to read 'Naomi Sanchez', with a large, stylized flourish extending to the right.

Naomi Sanchez  
Operations Specialist
